One of the greatest things about working with Tribunus Health is the incredible continuity of our team. Having familiar faces consistently manage specific states creates a seamless and comfortable experience – I always know exactly who to contact for Texas or Ohio, and that consistency over the years has been truly invaluable.

Tribunus Health is a class act. They have been extremely helpful to our organization in navigating some very complex negotiations with regard to reimbursement from various private and public insurance carriers. Their knowledge of our industry combined with their extensive network of key contacts led to some very favorable results for us. I would recommend them without hesitation to my colleagues in the healthcare industry.

**Center for Counseling and Family Relationships**

Working with Tribunus has not only met our expectations, but exceeded our expectations in every way.

A major benefit has been the information that Tribunus gathers before the negotiations begin. This led me to realize the need for a completely new structure and organization through our credentialing and contracting process. I am beyond elated to say that our credentialing, billing, and contracting processes are now streamlined and organized more than they have ever been.

I have been very happy with my experience with Tribunus. The whole team was very friendly and helpful. As a private practice physician it's difficult to have time and the knowledge to navigate insurance contracts and plans. The team worked tirelessly to gather all my contracts and fee schedules. Negotiations took time and were arduous however the team pushed hard through this time. They also helped create strategies to drive more business to my practice. Overall great experience!
